

Junaid Irshad

Software Developer

A self-motivated and hardworking individual with a strong background in programming logic, data analysis, business management and finance. Seeking a position in an industry that will allow me to utilize my skills towards the success of the company's operations. A quick learner and a team player with strong communication and management skills. Demonstrated analytical and problem-solving abilities. Proficient in Python, Java, SQL, HTML5, CSS3, JavaScript, SQL database, MS Access, Excel (vlookup, pivot tables).

Experience

05/2018 – **Full Stack Developer, NAFA Engineering**
present

- Research, Design and implement scalable applications for information identification, extraction, analysis, retrieval and indexing.
- Design, develop and maintain a set of enterprise class web applications in ASP.NET technologies both frontend and backend (jQuery, AJAX, ASP/HTML and SharePoint).
- Apply development best practices as test-driven development (TDD) techniques and integration tests for all developed software.

05/2016 – **Front-End Dev. Ops, American Business Consultants**

08/2018 *Cleveland, USA*

- Created and implemented a custom CSS grid system, with CSS media queries for mobile responsiveness.
- Created and maintained the front-end standards document and over saw production of HTML, CSS and JavaScript for my team.
- Worked in both Agile and Waterfall settings
- Tested front-end code in multiple browsers to ensure cross browser compatibility

05/2017 – **IT Intern, Toshiba (ALJ Electronics Ltd)**

08/2017 *Jeddah, KSA*

- Worked closely with the business to build advanced dashboard solutions
- Implemented complex formulas in Excel including vlookup, index/match, and pivot tables to facilitate analysis and reporting
- Optimized user interface solution for website and web applications
- Assisted with wireframe mockup, optimized HTML5/CSS3 code, and website branding guidelines
- Prepared site update reports for submission to management on a regular basis

05/2016 – **IT Intern, Premier Flight Academy**

08/2016 *Cleveland, Ohio*

- Developed front-end web application pages HTML5, CSS3, JavaScript
- Assisted teams with testing responsive design and browser compatibility on multiple devices
- Assisted with general administrative tasks around the work place.
